Letter of Recommendation for Greg Marks

It is with great pleasure that I write about the contribution of Greg Marks to the Stadium community. Greg produced and directed a film by the name, "Joelah." Much of the film was shot at Stadium High School using Stadium students and staff. The film was a focus on the issue of bullying.

In our focus of maintaining a safe a respectful school, Greg presented the debut of the film to our students and used it as a theme to create a bully free school at Stadium. The film was presented to each grade level at the beginning of the school year and Greg presented a workshop in connection to the film. Greg's presentation was engaging, real and sent a message of acceptance and welcome for all students. With the completion of nearly half the school year, we have had only one incident of a bully nature. His message and passion toward equity and providing a safe environment has made our school a place of learning, caring and acceptance for everyone.

I recommend Greg to anyone who wants to support real change in our school or work environment.

Go Tigers,

Kevin Ikeda
Principal
